

Tall Traditional Gates

Forgecraft

WROUGHT IRONWORK
SPECIALISTS

Tall Traditional Gates

These gates are 2033mm in height.

Gate Sizes

Width refers to the size of the opening, not the actual gate.

If ordering posts please give the exact measurement that the gate and posts have to fill. The overall height includes a 2" ground clearance where applicable.

Gate Latches

Please state if the hinges are going to be on the left or the right when the gate swings away from you.

Fittings

All fittings (i.e. hinge pins and striking plate) will be supplied with the gate (prices are inclusive, except for posts).

Screw in fittings are standard, but if required built in fittings can be supplied.

Posts are additional.

Specifications

Framework:

40mm x 10mm flat

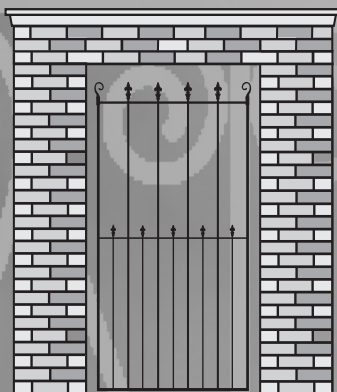

Infill bars:

16mm round main bars

Special Size or Designed Gates

We are always pleased to give quotations for non standard gates specifically designed to the clients own sizes and specifications. Equally we are always willing to discuss problems or queries clients may have concerning the purchase of our gates or any form of wrought ironwork.

Forgecraft reserve the right to change designs and/or specifications without notice.
